Lions Clubs International Service Activity Report Frequently Asked Questions

Q: How do I select the appropriate activity type?

A: There are ten different activity categories that include the most common areas of service for Lions. After reviewing the activity categories, select the activity type that best describes your project.

Although there may be more than one activity type that would be appropriate for your activity, use your own judgment when determining which activity type best describes your project.

Q: How do I calculate Lion Hours?

A: The report is designed to measure direct service hours. Clubs should only include hours that were devoted to the actual service project. For example, if there were 3 Lions involved in the service project and they each dedicated 2 hours, the Lions hours would be calculated as follows: (3 Lions x 2 Hours) = 6 Lion Hours.
